ELARA · 3 NOV 2026 · PROTOTYPE SCREENS

# Daily session concepts

Three clickable prototypes of the same daily session in Elara, a Spanish-first guidance mentor app for women. Day: Money path, Wuzhen, «Hacia el camino adelante» (week 2, day 1 in the app). All three use the same questions, the same sample answers (she picks «Mejorar mi trabajo actual» and writes «Preguntar a mi encargada si hay formación gratuita para subir de puesto») and the same mentor feedback. Only structure and pacing differ.

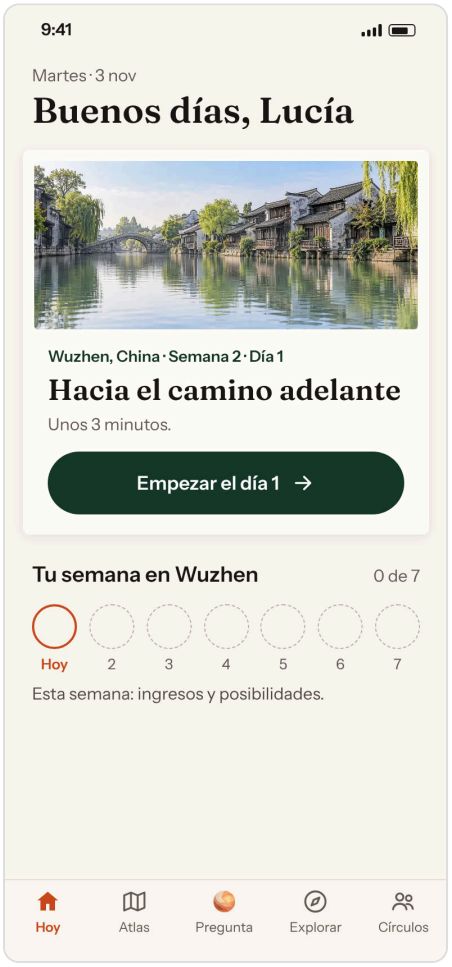

- **A · Step by step:** One screen per moment: «Por qué hoy», step 1, Elara's note, step 2, Elara's note, closing screen with tomorrow.
- **B · Conversation:** One chat thread; the choices and the takeaway box stay as structured inputs docked at the bottom.
- **C · Card to keep:** She sees an empty card first; each step fills it; the finished card stays on Hoy all week and in Tu colección.

**Important:** Elara's replies are simulated (written by hand to the app's rules, labelled «Respuesta simulada»), not output of the real model. The question wording is the app's current content, approval pending. Nothing has been tested with users. Screens are 393×852 (iPhone 15 size). Screens marked «Estado» show edge states: from the start, loading, offline, resumed after leaving halfway, finished. «Desplazada hacia abajo» shows the same screen scrolled down.

**Working recommendation (a hypothesis to test, not a finding):** C's card with A's «Por qué hoy» line on the first screen; keep B in the test.

# A · Paso a paso

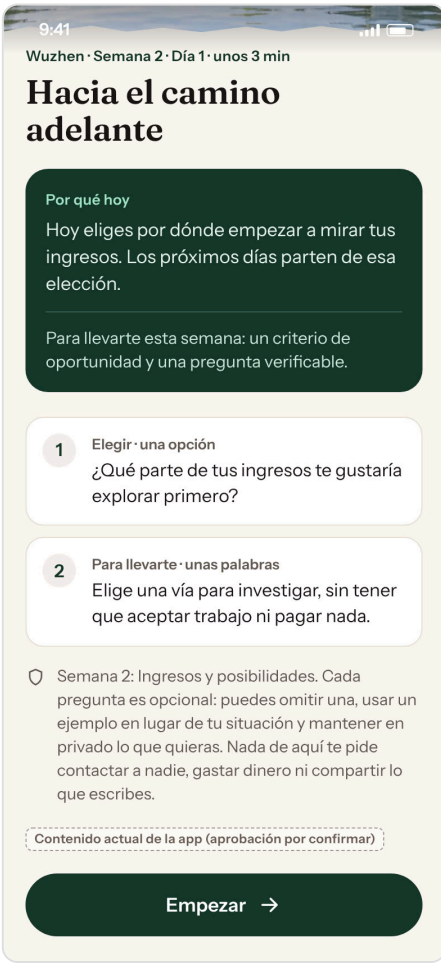

One screen per moment: «Por qué hoy», step 1, Elara's note, step 2, Elara's note, closing screen with tomorrow. 18 screens.

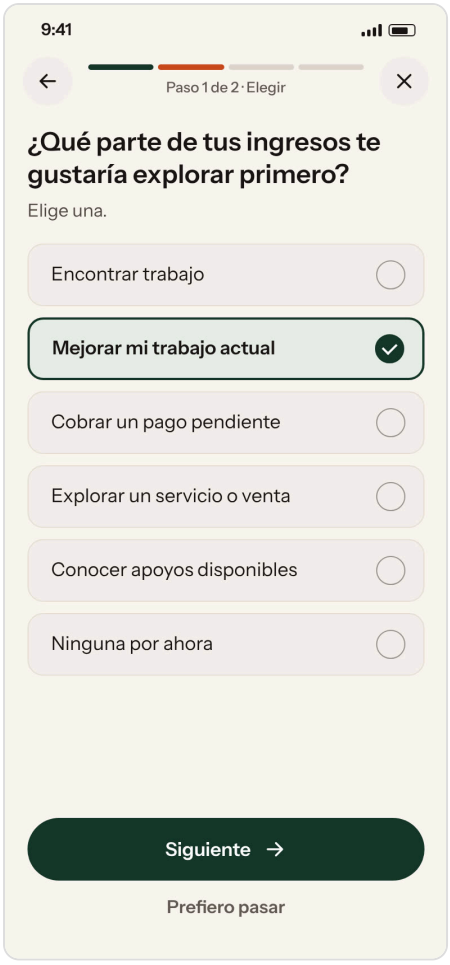

A1. Hoy

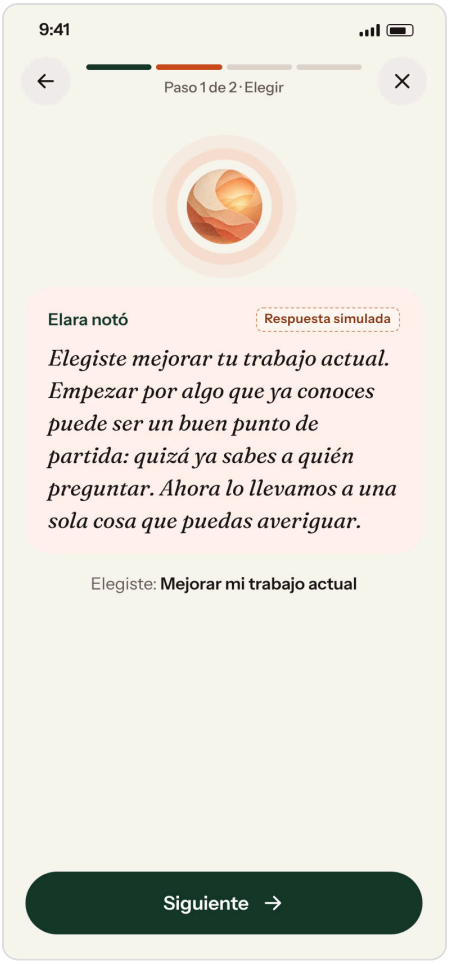

A2. Por qué hoy

A3. Por qué hoy (desplazada hacia abajo)

A4. Paso 1

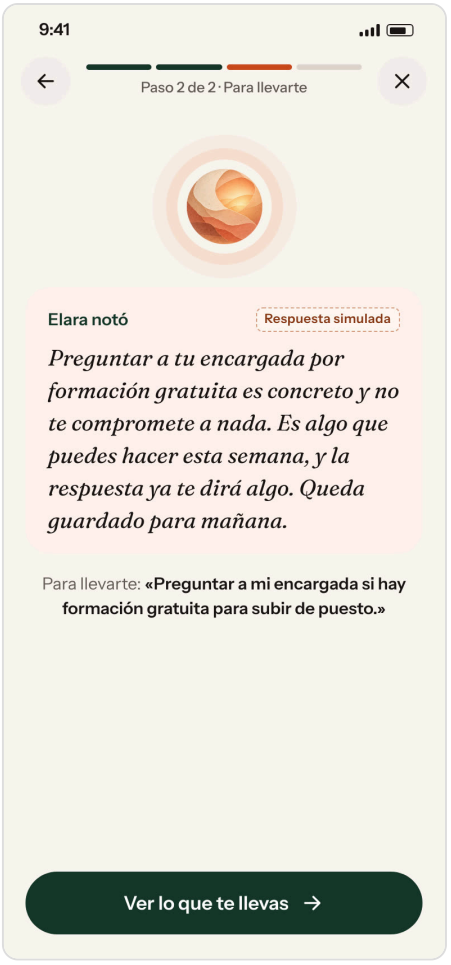

A5. Elara notó 1

A6. Paso 2

A7. Paso 2 escrito

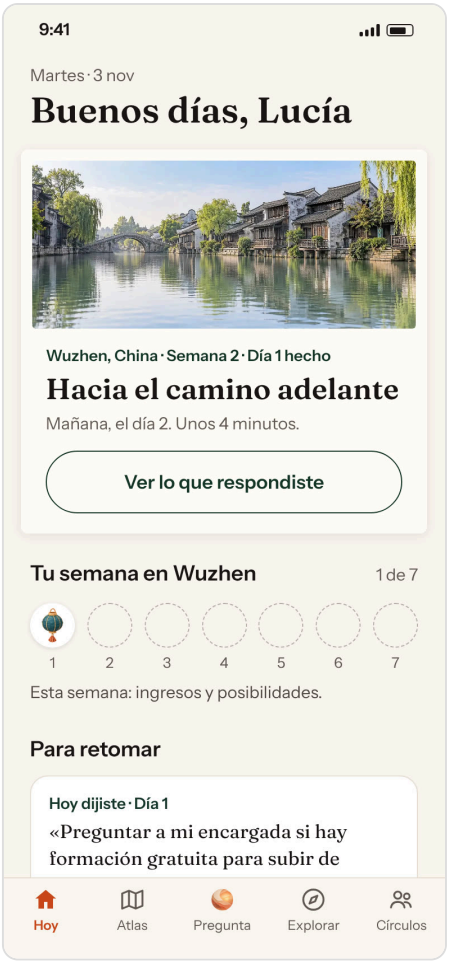

A8. Elara notó 2

A9. Cierre

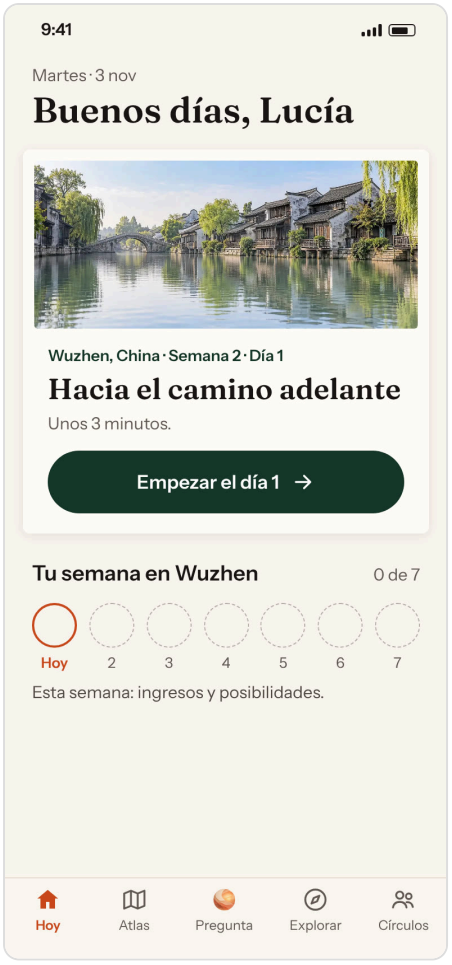

A10. Cierre (desplazada hacia abajo)

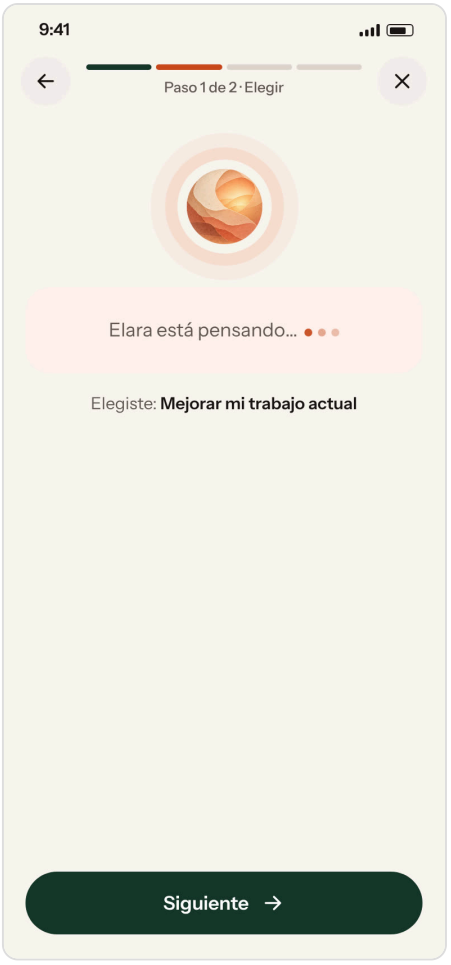

A11. Hoy después

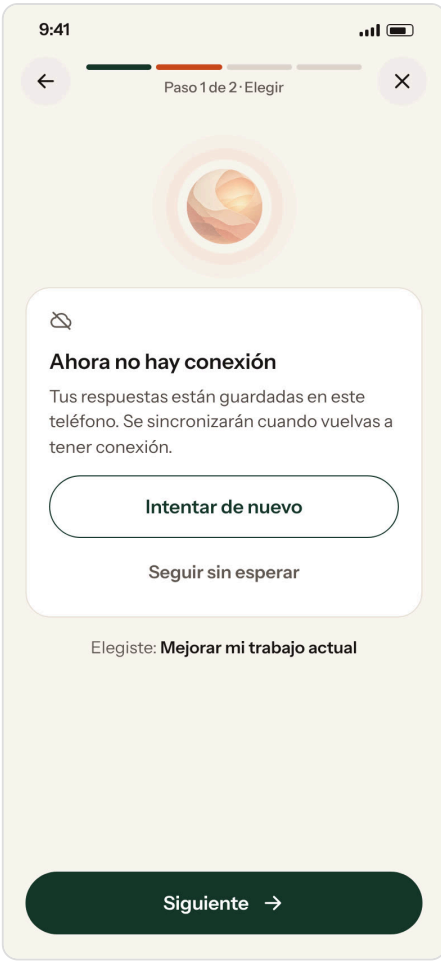

A12. Hoy después (desplazada hacia abajo)

A13. Estado: Desde el principio

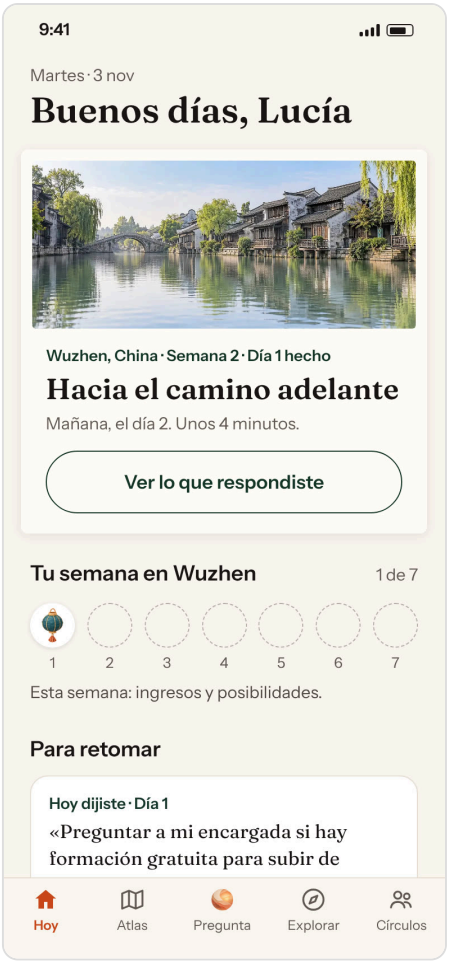

A14. Estado: Cargando

A15. Estado: Sin conexión

A16. Estado: Reanudar salió a mitad

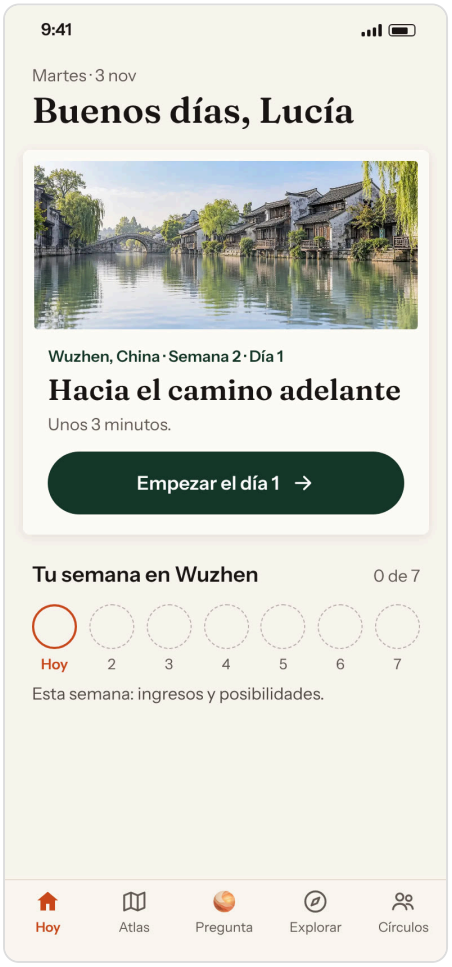

A17. Estado: Terminada

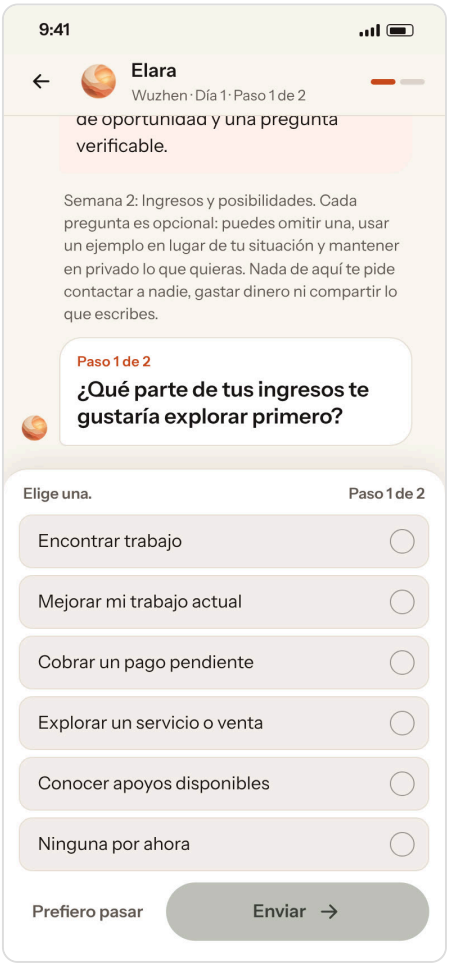

A18. Estado: Terminada (desplazada hacia abajo)

# B · Conversación con Elara

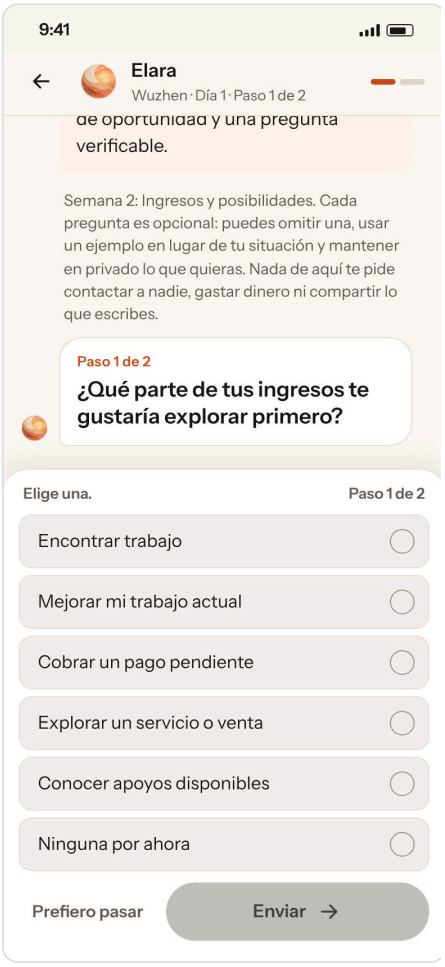

One chat thread; the choices and the takeaway box stay as structured inputs docked at the bottom. 24 screens.

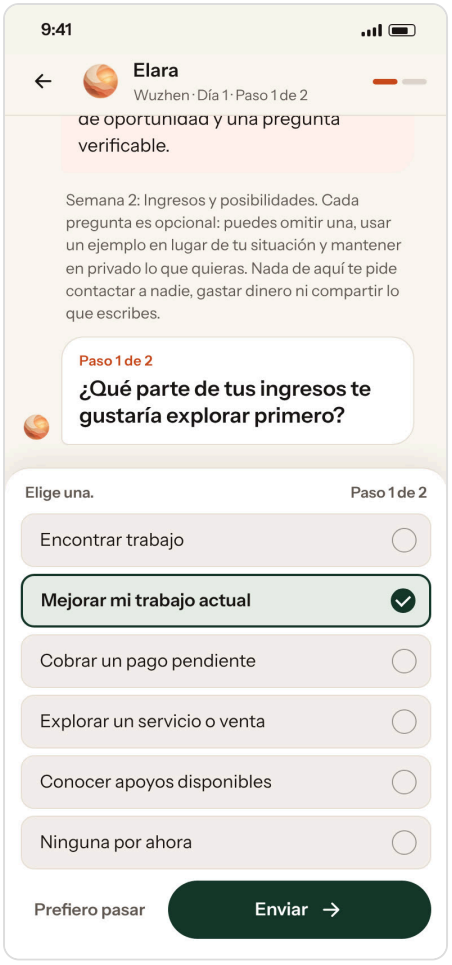

B1. Hoy

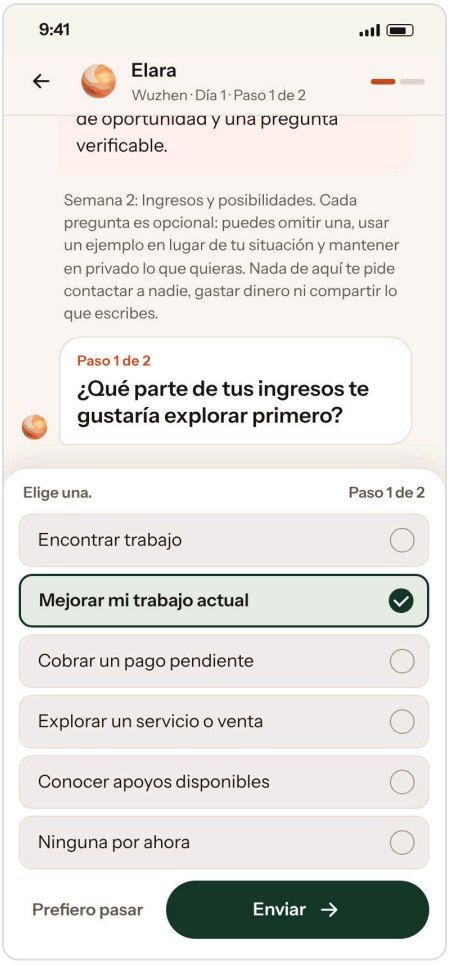

B2. Inicio

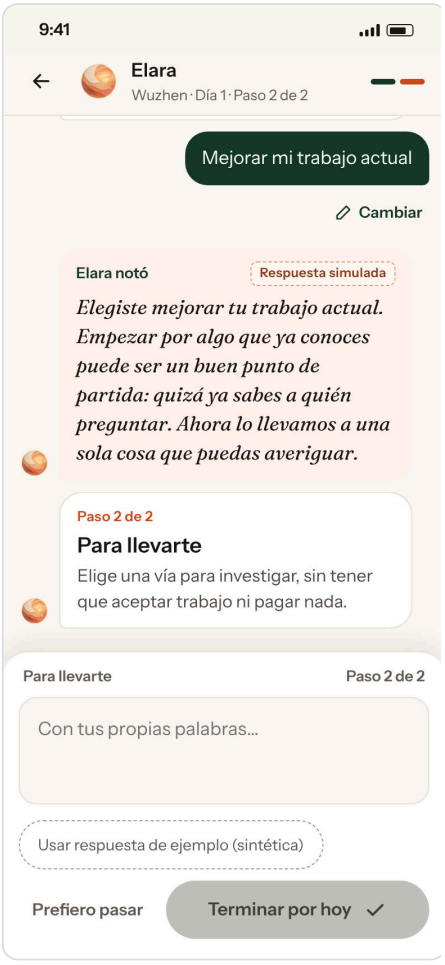

B3. Inicio (desplazada hacia abajo)

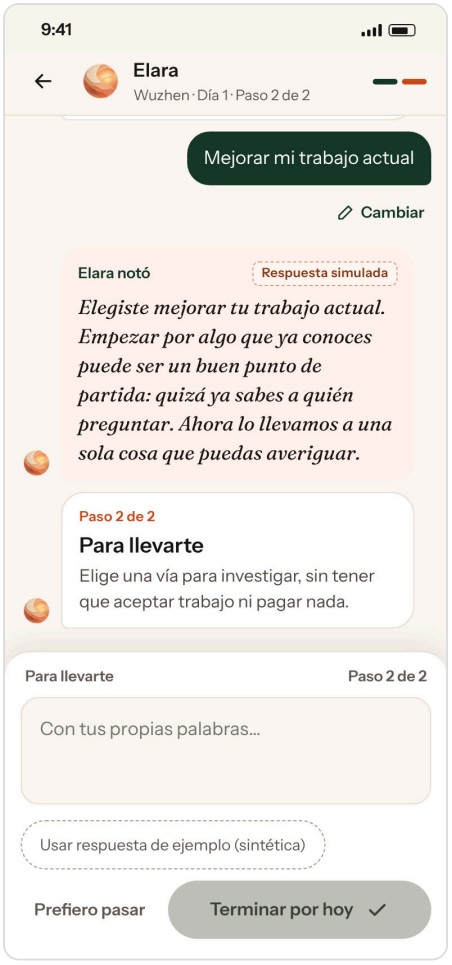

B4. Elección marcada

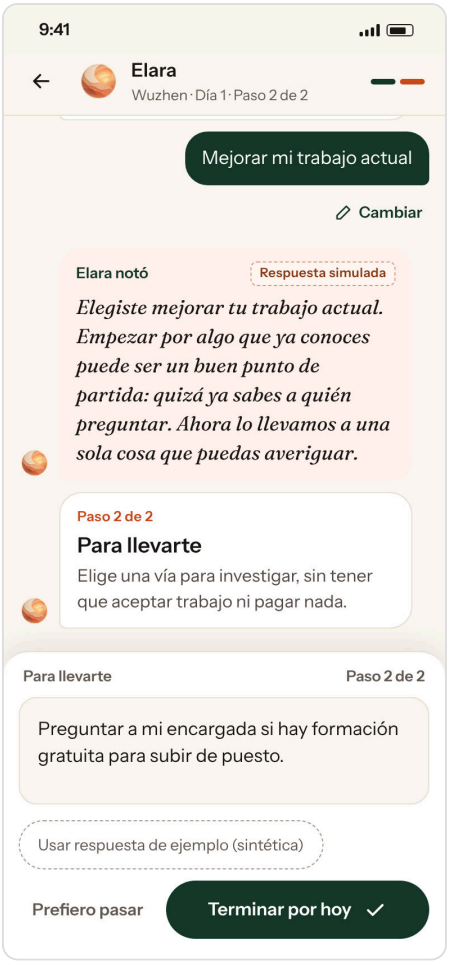

B5. Elección marcada (desplazada hacia abajo)

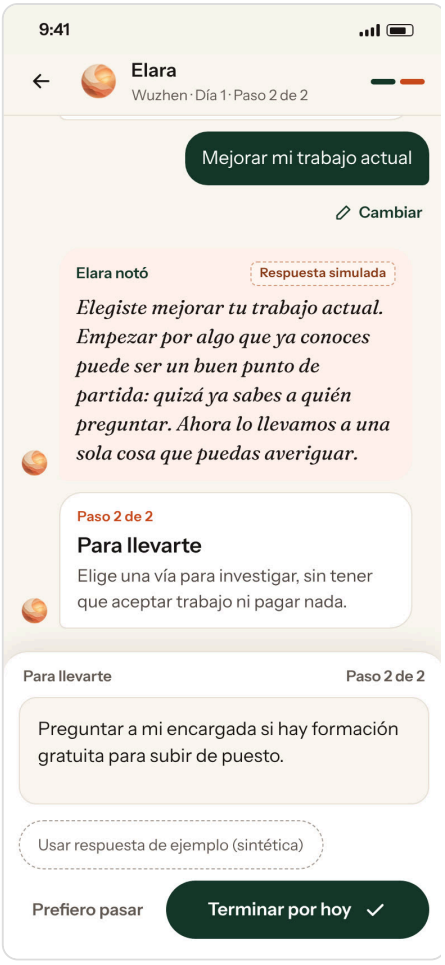

B6. Elara responde 1

B7. Elara responde 1 (desplazada hacia abajo)

B8. Para llevarte escrito
