Elara: Explorar y Círculos para desarrollo

22 Oct 2026 · what to send and where it is

Elara: Explorar and Círculos for developers (22 Oct 2026)

Start with the developer handoff page. Everything below is a review prototype or a spec: none of it is production code. Production is unchanged.

Links to share

The pages are private; share each one from its Share menu before you send the link.

Name	Link	What it is
Explorar handoff	https://claude.ai/artifact/AzMJvdMb58QCSPaDcnXvYt	Developer spec for the new Explorar page: screens, layout, tokens, components, production data mapping, behaviour, acceptance checks, asset and copy status, open decisions
Explorar	https://claude.ai/artifact/5p6YR5hja7VGstBZAqusGQ	Clickable prototype of the new Explorar page (shared look with Círculos)
Círculos	https://claude.ai/artifact/8p5F7tHrbSgV3op1bLEjDG	Clickable prototype of Círculos v2 (shared look with Explorar). Reviewer notes inside list what is simulated and the open decisions

Folder contents

1-explorar

- `explorar-new-ui-strings.md`: new Spanish UI strings (BORRADOR · pendiente de Alejandra).
- `explorar-copy-proposals-pending-alejandra.md`: 23 catalogue copy proposals. Ship the current catalogue text until these are approved.
- `explorar-imagery-sources.md`: where every image comes from, and which ones are placeholders.

2-circulos

- `circulos-v2-before-after.pdf`: the v2 flows and before/afters (taken before the shared look was applied).
- `circulos-v2-changes.md`: the change list.
- `circulos-v2-strings-borrador.md`: new and changed strings (BORRADOR).
- `circulos-photo-backend-work.md`: backend work needed before photos in posts can ship.
- `circulos-anonymity-moderator-access.md`: who can see the author of an «Anónima» post today, and the copy and test conflict. **This needs an owner decision before the copy ships.**

3-shared-design-system

- `explorar-circulos-shared-system.pdf`: both tabs side by side, before and after, with tokens, components and checks.
- `SHARED-SYSTEM.md`: the shared tokens and components.

- `elara-shared.css`: the shared CSS block used by both prototypes.

4-pending-your-review (owner only, do not send yet)

- `explorar-circulos-refinement-NOT-APPROVED.pdf`, `ai-tells-audit.md`, and the refinement versions of the system doc, CSS and offline Explorar file. These are the latest refinement, which is still under review. Send them only once you approve it.

Not included on purpose

- Onboarding «Llegada a Elara» v3.1 and the Lan Hạ Bay pilot: these are proposals still under review.
- Older published pages, such as the first onboarding prototype and the Explore A–D directions: they are superseded.
