Prompt for Codex: the missing scenes (Europe, South America, Oceania)

Make 6 photographs, plus 3 optional spares. They join a set that already exists, so they must match it in size and look.

Sizes (render natively, do not upscale):

- **Vertical (V):** 1620 x 3888 px (5:12). Minimum 1080 x 2592.
- **Horizontal (H):** 3888 x 1620 px (12:5). Minimum 2592 x 1080.
- Export as PNG.

Look: realistic documentary travel photo, warm natural light (golden hour or soft morning), rich but natural colour, gentle depth, sharp detail throughout. No people, no vehicles, no boats with people, no signs, no readable text, no logos, no watermarks.

Composition:

- One continuous scene, one camera position. No collage, no panels, no seams.
- **Vertical images** scroll upward on a phone. Put something worth looking at in every third: sky or distance at the top, the main landmark in the middle third, and foreground detail at the bottom (stone, flowers, water, sand).
- **Horizontal images** pan left to right. Keep the main landmark between 35% and 65% of the width, with interesting detail out to both edges.
- About 15% of each long edge may be cropped. Keep it lightly detailed.

Required (6)

File	Orientation	Place
`w7-6.png`	H	Lavender fields in Provence, France: rows running to a stone farmhouse and low hills
`w7-7.png`	V	Manarola, Cinque Terre, Italy: colourful houses stacked on the cliff above the sea
`w8-6.png`	H	Iguazú Falls, Argentina/Brazil: wide curtain of falls with mist and green jungle
`w8-7.png`	V	Valparaíso, Chile: steep painted stairs and colourful hillside houses, the bay far below
`oc-1.png`	H	Uluru, Australia: the rock at sunset, red sand and desert scrub in front
`oc-2.png`	V	Milford Sound, New Zealand: Mitre Peak rising from still water, a waterfall on the cliff

Optional spares (3)

File	Orientation	Place

`sp-eu.png`	V	Hallstatt, Austria: lakeside village and church spire, mountains behind
`sp-sa.png`	H	Salar de Uyuni, Bolivia: mirror salt flat reflecting the sky
`sp-oc.png`	H	Great Barrier Reef, Australia, from above: turquoise reef and a heart-shaped coral patch

Delivery: one zip with the file names above, sent as an attachment or put in the same Google Drive folder as last time. Please don't paste images inline in the chat.
